Huns Forced Back On Three Fronts; Reply Is Unconditional Surrender

ADVANCE BEYOND LAFERE AND LAON CONTINUED BY FRENCH

In Selle Region, They Are Making Progress Toward Crecy Fur Serre, Endangering German Line on Oise. Allies Advance 6 Miles on 35-Mile Front in Flanders.

MORE THAN 10,000 PRISONERS TAKEN

(By United Press)

Paris, Oct. 15.—Beyond LaFerre and Laon the advance of the French army continues today, according to advices from the front received here. In the Selle region, northeast of La Fere, they are making progress toward Crecy Fur Serre. This thrust is greatly endangering the Germans sticking to the line of the Oise between Guise and a point north of La Fere.

These enemy forces are in a salient and are liable to be caught in the rear by French forces advancing toward Crecy.

American advanced forces in the Champagne are moving toward Bucancy northeast of Grand-Pre.

The Germans of this region have the difficult Ardennes region at their back.

French Cross the Aisne

Paris, Oct. 15.—The French have captured Barenton, Cel, six miles north of Laon, and have crossed the Aisne river west of Grande Pre. In the Champagne region, Villy and Cornes, have been captured, the war office announced today.

Cross Selle River

London, October 15.—American troops on patrol crossed the Selle river in the neighborhood of St. Souplet, south of Le Cateau, Monday and took thirty prisoners. Field Marshal Haig announced in an official report today.

Driven Back on 35-Mile Front

London, Oct. 15.—By attacks both by land and sea, the Germans have been thrown back in Flanders more than six miles on a front of thirty-five miles. Belgians, British and French are participating in the attack. More than ten thousand prisoners have been taken.

A British monitor stole close to Ostend harbor and bombarded the enemy submarine bases. It is rumored the warship was blowing up the German harbor defenses so as to make it possible to penetrate the submarine bases at Zeebrugge and Bruges.

Yanks Fight Stubbornly

With American First Army, Oct. 15.—American troops supported by tanks today stubbornly fought their way forward between the Argonne and the Meuse, seizing German strong points. The fighting this morning was in cold damp weather. German attacks were repulsed by units of the Second American army. A heavy counter bombardment came from enemy batteries during the night. This morning the German guns were silenced.

Retiring on Three Fronts

London, Oct. 15.—On three fronts—in Flanders, in the Champagne and in the Laon salient—the Germans are being forced back by Marshal Foch's armies.

Infractions Of Health Order Bring Statement

Authorities Say Order Prohibiting Public Meetings, Including Social Gatherings Will be Enforced to Letter. Many Organizations in Rushville Violate Order, Which is in Reality a Law, Causing Complaints From Elsewhere in the County.

48 MORE CASES REPORTED IN ONE DAY

The order of the state board of health, prohibiting public meetings of all kinds on account of the epidemic of Spanish influenza, will be enforced to the letter here. This announcement was made today by Dr. J. B. Kinsinger, secretary of the city board of health, because there have been several infractions of the order by social organizations which have held their regular meetings regardless of the ban, which became effective a week ago last Monday.

Many complaints have come to Dr. E. I. Wooden, county health officer, from people living outside of Rushville, saying that they have the right to have social affairs if people in Rushville have the privilege. Both the city and county health officers have uniformly denied permission for any public meetings of any character, social or otherwise, but many organizations have met as usual regardless.

It should be understood that the order of the state board of health is a law and cannot be treated lightly. Health officers pointed out that the law regarded as a public gathering, five or more people assembled together some place indoors. There is a penalty attached and if it becomes necessary to compel the observance of the state health board orders, severe measures will be taken.

Although the influenza epidemic is no more serious than it has been, it still hangs on and their is constant danger of it becoming very serious. The only way it can be eradicated, health officers declare is to follow to the letter the orders of the state board and thus prevent the spread of the disease, which is highly infectious. A total of 48 cases of influenza were reported in Rush county, including Rushville, yesterday, but up to noon today only four cases had been reported from outside of Rushville and none in Rushville. This brings the number of cases reported in the county up to approximately 250. It should be remembered, of course, that many of these patients have already recovered and the majority of the new cases being reported are in families where there are already patients suffering with the disease. It was very gratifying to the city health officers that only four of twenty-seven cases reported in Rushville yesterday, developed on that day and the remainder dated as far back as last Thursday.

The people of Rushville and all over Rush county for that matter are urgently requested to respect and carefully observe the health board orders before it becomes necessary to compel observance. Health officers pointed out that people certainly could forego their pleasures for the time being, when the health of the community is at stake, especially when churches are not allowed to hold services, families not permitted to hold public funerals and some legitimate businesses are not allowed to run on account of the ban. People should be thankful they are well, it was pointed out, and be willing to abide by the health rules in order not to prolong the epidemic. The work of the schools of the county is being seriously disrupted on account and be the cause of continuing the ban, the whole county will suffer. Not all social organizations have violated the orders. Many of them have consulted health officers and have been informed that meetings are not permitted. In some instances the organizations have met regardless but in other cases there has been excellent co-operation.

ple should be thankful they are well, it was pointed out, and be willing to abide by the health rules in order not to prolong the epidemic. The work of the schools of the county is being seriously disrupted on account and be the cause of continuing the ban, the whole county will suffer. TWO INCREMENTS ENTRAIN TODAY

Voluntary Induction Quotas Depart For Rolling Prairie and Warsaw For Training

EXAMINATIONS CONDUCTED

Half of Number Ordered to Report First Day Are Held For General Military Service

Two voluntary induction quotas of registrants entrained today at 10:51 a. m. over the C. I. & W., three going to Rolling Prairie, Ind., to be trained for the motor transportation service and five to Warsaw to be trained as convoy truck drivers. Both increments went to Indianapolis where they boarded special trains for their respective destinations. A crowd of relatives and friends of the eight selectives, all of whom volunteered to answer these two calls, were at the station to say farewell.

The classification having been completed by the local army board, the efforts of the board are now concentrated on the task of assigning order numbers and entering the names of the September 12 registrants began yesterday and will continue every day this week except Saturday, and into next week, because twenty more were ordered today to report to the examining physician next Monday.

Of the twenty called before the board for examination yesterday, ten were held for general military service, three were sent to the medical advisory board, two were rejected as physically unfit, on held for limited service and one failed to report. The remaining three could not be examined.

GERMANS MUST GIVE UP OR INVASION IS ONLY ALTERNATIVE

Military Men Are Pleased With Reply of President And Believe Huns Can Prevent Their Country Being Invaded Only by Placing Themselves at the Mercy of the Allies and the United States.

DRASTIC STEPS IF ARMISTICE RESULTS

(By United Press)

BRITISH ARE SATISFIED

Wilson's Note Also Satisfactory to Other Allies

London, Oct. 15.—President Wilson's reply to Germany is known to be eminently satisfactory to the British. The conditions he outlined coincide not only with the views of the British, but of the other allies as well. Lord Northcliffe's Evening News was the first paper to appear with Wilson's answer, which it printed in splashes of the biggest type, covering half a page.

Revolt Grows In Provinces Of Austria

General Political Strike Begins in Bohemia and Moravia Monday, Accompanied by Manifestation for Independence in Prague, and is Now Entering Final Stages. Home of Czechs-Slovaks.

(By United Press.)

Zurich, Oct. 15.—A general political strike in Bohemia and Moravia began on Monday, according to dispatches received here today. There was a great manifestation in Prague in favor of independence. The dispatches declared that the final stages of the revolution had begun.

Bohemia and Moravia are Austro-Hungarian provinces, the home of the Czechs-Slovaks, who have been recognized as one of the allied nations. It has been the belief that the breaking up of the Austrian conglomeration of peoples and revolt against the Hapsburgs and the Hohenzollerns might start in Bohemia and Moravia as dissatisfaction has been stronger in those provinces than in any other place in the central powers.

TO BE EXAMINED TOMORROW

I. M. Greeley is First Alternate For Westpoint Appointment

Irving M. Greeley, son of Mr. and Mrs. Enos Greeley of this city, has been appointed first alternate for the Westpoint military academy and will receive the appointment providing her passes the examination and the man with the first chance at the appointment fails. He was recommended by Congressman R. N. Elliott, of the sixth district. Greeley, who is in the S. A. T. C. at Indiana university, received word today to report to the commanding officer of the Purdue university unit of the S. A. T. C. tomorrow for mental and physical examination.

Washington, Oct. 15.—Unconditional surrender by Germany was the interpretation put on President Wilson's answer to the German plea for peace by both American and allied military officials here. Only by absolute surrender, they said, can the enemy now prevent the terminating evidence of his defeat—invasion of Germany.

There is no doubt among officials that, sooner or later, the enemy will be compelled to accept these uncompromising terms. The German army is being pounded to death in the field, they declared, and the only thing Germany can hope for in the way of salvage from the wreckage is to prevent the war being carried across her border. And that can be accomplished only at the price of putting herself at utterly at the mercy of the victors as did Bulgaria.

Military opinion appeared to be in full agreement that, in enunciating the policy that absolute safe-guards and guaranties of the "present military supremacy" of American and allied forces must control any armistice agreement, President Wilson had placed it beyond the power of Germany to reap any benefit from an insincere move toward peace.

The question of the agencies to be employed in framing armistice conditions naturally will come up only when Germany has complied with the president's other requirements. It seemed probable to officers, however, that the military board of the supreme war council at Versailles, would be the natural agency. The council itself is composed only of the premiers of the allied nations and President Wilson. The military and all other boards of the council are advisory boards only and their recommendations must be ratified by the council to become effective.

Without question Marshal Foch, the supreme commander, and the field commanders, General Petain, Haig, Pershing and Diaz, would be fully consulted, and the resulting definite terms of surrender in all probability would be at once ratified and laid before Germany as the only prize for respite from attack.

The general elements of the terms appeal to all officers. It was pointed out that it was the situation of today at the front that constituted the supremacy of which the President speaks, the situation which must be adequately safeguarded. As competent military judges see that situation, the German army is in desperate straits, particularly for manpower. There also is striking evidence of the German military's collapse.

GIRLS DOUGHNUT SHOP BOMBARDED

Salvation Army Canteen Girl At Front Writes Of Attack By German Artillery.

DESCRIBES A GAS ATTACK
Church Bells and Klaxons Sound Above Noise, Warning, Of The Approaching Danger.

By MISS IRENE MCINTYRE
(Salvation Army Canteen Girl)
(Written for United Press.)

With The American Troops At The Front, Sept. 17. (By Mail.)—A few nights ago we had another taste of war. We had been lulled into a false sense of security by an unusually quiet week, very little artillery, no barrages at all, and very little air fighting.

In fact, the pans in our kitchen had not been rattled for days and we were ready to forget we were at the

front, except for soldiers and the necessity for keeping out of observation of German lookout posts on the hills opposite us.

All of a sudden at midnight the big guns of the boches let loose in a box barrage about a mile and a half from us at the nearest point. At the same time they shelled all the village in a circle about us.

We hurried into our clothes and went down to the barbed wire entanglements in a neighboring field. There we were comparatively safe, as long as we lay close to the ground so that a shell could not reach us if shells came nearer. We could also get a fine view of the fireworks.

It was wonderful, and solemn, too, when one thought of it. The night was blue black, and with each retaliating shot from our guns great or-

ange flames darted and disappeared into the blackness. We remained perfectly silent while we watched. My heart always speeds up as I watch such a sight and realize what it is meaning to our boys out there in the trenches.

After an hour of the most brilliant artillery display I have ever seen we went to bed and tried to sleep, but too many whining shells passed over head for that. I didn't tell Mrs. Sheppard, the inspector from Boston, who was with us, that the shells were incoming, because it was her first experience under shell-fire and we didn't want to scare her to death. But my sister and I knew what they were.

At the same time we were watching just where those shells were landing. Just as dawn was breaking, which is early in France, the church bell and the klaxons sounded above the noise of bursting shells and we knew a gas attack was on.

Gladys and I donned our masks and then discovered Mrs. Sheppard could not get hers on. Investigation showed she did not have it far enough under her chin, and her nose clip could not find home. Gladys turned on the flashlight while I tried to make the clip and Mrs. Sheppard's nose connect.

Finally the junction was made, and we realized she was safe and ungasped. Then our relief wanted to vent itself in laughter, and we giggled until we were afraid we would blow off our respirators. I had to dress with my gas mask on, and it was more like an obstacle race than anything I have yet attempted.

Before long the all-clear signal was given, and we knew the gas was gone, though the guns still sounded all around us. It was now perfectly light, and we hurried to the kitchen to make a fire and get hot chocolate and food for any wounded who might come through.

In a short time some boys did arrive, slightly wounded, and well enough to stop a few moments for hot drinks and sandwiches. They were glad we had something to give them, for the poor boys showed the strain they had been under, and they were immensely appreciative of something hot to eat and drink.

SPANISH INFLUENZA—WHAT IT IS AND HOW IT SHOULD BE TREATED

Nothing New—Simply The Old Grip, or la Grippe That Was Epidemic in 1889-90. Only Then It Came From Russia by Way of France and This Time by Way of Spain.

Go To Bed and Stay Quiet—Take a Laxative—Eat Plenty of Nourishing Food—Keep up Your Strength—Nature Is The Only "Cure."

ALWAYS CALL A DOCTOR

NO OCCASION FOR PANIC

Spanish influenza, which appeared in Spain in May, has all the appearance of grip or la grippe, which has swept over the world in numerous epidemics as far back as history runs. Hippocrates refers to an epidemic in 412 B. C. which is regarded by many to have been influenza. Every century has had its attacks. Beginning with 1831, this country has had five epidemics, the last in 1889-90.

There is no occasion for panic—influenza itself has a very low percentage of fatalities—not over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, attacking principally, patients in a run-down condition—those who don't go to bed soon enough, or those who get up too early.

THE SYMPTOMS

Grippe, or influenza as it is now called, usually begins with a chill followed by aching, feverishness and sometimes nausea and dizziness, and a general feeling of weakness and depression. The temperature is from 100 to 104, and the fever usually lasts from three to five days. The germs attack the mucous membrane, or lining of the air passages—nose, throat and bronchial tubes—there is usually a hard cough, especially bad at night, often times a sore throat or tonsillitis, and frequently all the appearances of a severe head cold.

THE TREATMENT

Go to bed at the first symptoms, not only for your own sake but to avoid spreading the disease to others—take a purgative, eat plenty of nourishing food, remain perfectly quiet and don't worry. Quinine, aspirin or Dovers' Powder, etc., may be administered by the physician's directions to relieve the aching. But there is no cure or specific for influenza—the disease must run its course. Nature herself will throw off the attack if only you keep up your strength. The chief danger lies in the complications which may arise. Influenza so weakens the bodily resistance that there is danger of pneumonia or bronchitis developing, and sometimes inflammation of the middle ear, or heart affections. For these reasons, it is very important that the patient remain in bed until his strength returns—stay in bed at least two days or more after the fever has left you, or if you are over 50 or not strong, stay in bed four days

or more, according to the severity of the attack.

EXTERNAL APPLICATIONS

In order to stimulate the lining of the air passages to throw off the grippe germs, to aid in loosening the phlegm and keeping the air passages open, thus making the breathing easier, Vick's VapoRub will be found effective. Hot, wet towels should be applied over the throat, chest and back between the shoulder blades to open the pores. Then VapoRub should be rubbed in over the parts until the skin is red, spread on thickly and covered with two thicknesses of hot flannel cloths. Leave the clothing loose around the neck as the heat of the body liberates the ingredients in the form of vapors. These vapors, inhaled with each breath, carry the medication directly to the parts affected. At the same time, VapoRub is absorbed through and stimulates skin, attracting the blood to the surface, and thus aids in relieving the congestion within.

HOW TO AVOID THE DISEASE.

Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing or spitting. So avoid persons having colds which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food. Above all, keep free from colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better still, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary tea kettle. Fill half full of boiling water, put in half teaspoon of VapoRub from time to time—keep the kettle just slowly boiling and inhale the steam arising.

NOTE—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol and Camphor with such volatile oils as Eucalyptus, Thyme, Cubebs, etc., so that when the salve is applied to the body heat, these ingredients are liberated in the form of vapors.

VapoRub is comparatively new in New York State and New England and a few western states where it is just now being introduced, but in other sections of the country it is the standard home remedy in more than a million homes for all forms of cold troubles. Over six million jars were sold last year. It is particularly recommended for children's croup or colds, since it is externally applied and therefore can be used as freely as desired without the slightest harmful effects. VapoRub can be had in three sizes at all druggists. (Advertisement.)

RED CROSS GETS PUMPKINS

Worthington, Ind., Oct. 14.—Patriotic farmers in this vicinity donated sixty-six wagon loads of pumpkins to the local Red Cross chapter, which probably will realize about \$500 from them. The farmers had brought the pumpkins here to be shipped, but because the cars were not ready they gave them to the Red Cross.

MUST MAKE WANTS KNOWN LOCALLY

Cities and Towns Needing Nurses During Influenza Epidemic Should Apply to Health Officer

OR TO RED CROSS CHAPTER

All Graduate and Practical Nurses Urged to Communicate With Nearest Red Cross Chapter

Cities and towns needing nurses and hospital supplies to care for influenza cases among civilians must make their needs known through their local health officer and local Red Cross chapter and not apply direct to Red Cross division headquarters.

The same procedure holds good for the military schools established in colleges which may be stricken with the epidemic.

This statement was issued at Lake Division headquarters this afternoon as a result of the confusion arising among civilian populations and student soldiers needing nursing care and supplies.

If local Red Cross resources and public health resources are not adequate, local health officers can get help from Division Red Cross headquarters if their state boards of health request it.

All chapters have been provided with full instructions as to procedure, relationship with local boards of health and with the division headquarters. Meanwhile the Lake Division is still sending nurses and hospital supplies direct to military camps almost as quickly as requisitions are received. New requisitions are on hand from Camp Taylor, Sherman and Buell.

All graduate and practical nurses are again urged to communicate with their nearest Red Cross chapter for assignment.

Chapters have received full instructions how to carry out a survey of their local nursing resources and all nurses are repeatedly being urged not to go out on any influenza assignments without some authorization from the Red Cross. This is to enable the Red Cross to keep a constant inventory of the number and kind of nurses it has available. Without this inventory, according to the statement from division headquarters, confusion will result.

Today's instructions to Red Cross chapters from James L. Fieser, chairman of the division Committee on Influenza, suggest that local chapters organize groups of lay women to augment the professional nursing forces if necessary. The instructions, however, point out that the organization of such women should include only those who are, through some previous training or experience, qualified for membership in this important auxiliary force.

Vitality
VIM, VIGOR—"PEP"—the great needs of today, when men and women should have strength, fortitude and cheerfulness—these are denied the sufferer from kidney and bladder trouble. That awful tired feeling, heaviness, languidness, soreness, stiffness, backache, rheumatic pains, lumbago, painful bladder weakness and other symptoms soon disappear when the kidneys are strong and healthfully active.
Foley Kidney Pills
act promptly and effectively to restore weak, overworked or diseased kidneys and bladder health and normal functioning. Their healing and curative qualities are guaranteed.
M. T. Wesson, 25-105 Ave. W., Duluth, Minn., writes: "I am pleased to testify that Foley Kidney Pills have been the means of giving me relief from a case of kidney and bladder trouble which bothered me for some time."

A REAL MANURE SPREADER
Rome was not built in a day—neither has there ever been an absolutely first-class spreader built in a day or a month or a year or ten years. By first class we mean as spreaders are measured today.
It takes many years of cumulative experience and many years of developing organization to build what today can be truly designated as an absolutely first-class machine.
The "RUSHVILLE SPECIAL" Spreader which we have been telling you so much about is the result of more than fifteen years' experience by a specialty factory, made up of men and machinery and an organization that knows little else but to build these machines, but this one thing they know and know it well. The company building our spreaders is the oldest spreader builder now in existence and doing the largest business and building the most machines of any concern in the United States.
They stand as leaders and their product, the "RUSHVILLE SPECIAL" Spreader, is unquestionably a leader in its line. We are fortunate in being able to offer this machine to our customers because of its many qualities which we take great pleasure in showing to our Trade as we have the opportunity. As we said before, we await your verdict.

Personal Points

—Russell Casady was a visitor in Indianapolis, this morning.

—Mrs. Fred Johnson spent the day in Indianapolis on business.

—Mrs. Bert Simpson spent the day in Indianapolis, as the guest of friends.

—Louis Lambert was a visitor in Indianapolis this morning and will transact business.

—D. F. Plummer of Indianapolis, is visiting his cousin, John L. English, west of the city.

—Mr. and Mrs. Alva Hungerford spent the week-end with their son Paul, who is in training at Camp Taylor, Ky.

—John Blackledge, T. W. Lytle, Harry Beale and Victor Jones left today for a fishing trip on Little Blue River.

—Mr. and Mrs. Perry Young of Comersville, spent Sunday as the guests of Mr. and Mrs. Fent Johnston of West Fifth street.

—Robert Vredenburg of Fort Harrison, spent a few hours in this city last evening as the guest of his mother, Mrs. F. L. Vredenburg.

—Mr. and Mrs. W. S. McMillin and children of Indianapolis, have just returned after spending the week-end as the guests of Mr. and Mrs. George Helm in West Third street.

—Mr. and Mrs. Don Goodson and son, Mr. and Mrs. Forest Havens and Mr. and Mrs. George Smith and children, attended the funeral services of Lon Burkher of Fountain-town today.

—Lieut. Ralph J. Blank of Camp Johnson, Florida, former history teacher and basketball coach of the high school here, is spending a few days in this city as the guests of friends before returning to camp.

—Miss Hazel Steeb has been called to Piqua, Ohio, on account of the serious illness of her sister, Mrs. Ralph Peterson, and her husband.

They both had influenza and Mr. Peterson's case has developed into pneumonia.

—Paul Thorpe, Harold Perkins and Paul Newhouse left today for Crawfordsville to re-enter the Students Army Training Corps. They have been home while Wabash college has been closed, due to the epidemic of Spanish influenza.

CASUALTIES NAME TWELVE INDIANANS

One Thousand, Four Hundred and Fifty Names Were Reported in Today's List

A SERVICE CROSS IS AWARDED

Washington, Oct. 15.—One thousand, four hundred and fifty names were reported in today's casualty list cabled by General Pershing. Ninety-four were killed in action; ninety-eight were missing in action; three hundred and sixty-nine wounded severely; forty-nine died from wounds; sixty-eight died of disease; eight died of accident and other causes; thirty-seven wounded slightly and two hundred and seventy-two wounded, degree undetermined. The Indiana casualties, which included the names of twelve men, were divided as follows:

Killed in action—Arthur T. Johnson, Chesterton.

Died from wounds—Cook, Charles Edward Rice, Kendallville.

Wounded in action, degree undetermined—Private Moses Pukis, Laporte; Private John Sezeponski, South Bend; Private Marbel W. Haskett, Terre Haute.

Died from disease—Private William E. Huntsinger, Indianapolis.

Wounded severely—Lieut. Victor H. Nysewander, Jonesville; Private Frank Marvin Earl, New Albany; Private Edward S. McFalland, Greenfork; Private Henry Jadinski, Michigan City; Robert Jones, Gas City.

Missing in action—Private Fay Owens, Alexandria.

A distinguished service cross has been awarded to Private Henry C. Richmond of Anderson for an act of extraordinary heroism described after his name as follows:

Private Henry C. Richmond, Co. M., 23rd Infantry, deceased—For extraordinary heroism in action near Vanx, France, July 1-2, 1918. He moved through heavy woods under heavy machine gun fire flanking dug-outs from which twelve German prisoners were taken. In the action July 6-10 near Soissons, France, showing the same fearless qualities, he was killed. Next of kin: Mrs. Clara Boram, sister, Anderson, Ind.

KAISER TO STICK

Berne, Switzerland, Oct. 15.—The Wolff News Agency of Bern has issued an official denial of the report which had become current in Germany that Emperor William intended to abdicate.

Days Pickings

Prosecutor Albert Stevens is recovering from an attack of the influenza.

Miss Ida Dixon is ill at the home of Mr. and Mrs. John Casady with acute indigestion.

Mrs. Clarence Weidner, living west of the city is ill at her home with the Spanish influenza.

Mrs. Catherine Burd, living with her son John Burd of Manilla, is sick with the influenza.

L. R. Osborn has filed suit against John R. Ward in the circuit court, demanding \$300 damages.

Joseph H. Berry has filed suit in the circuit court against Walter G. Duke, alleging breach of warranty.

Max N. Koshland has sued Alva N. Harold and Isidor Hessel in the circuit court, on notes, demanding \$750.

Irwin Cross has filed suit in the circuit court against his father, William Cross, demanding a dissolution of partnership.

An eight and half pound baby boy was born to the wife of Ben Sparks last night. The child has been named Ben, Jr.

A baby girl was born to the wife of Eugene Butler, superintendent of the Carthage schools, Wednesday, Oct. 9. It has been named Marjorie Janetta.

A marriage license has been issued to Miss Grace P. Gerber, daughter of Mrs. Mary Gerber of this county, and Everett R. Daggett of Indianapolis, a traveling salesman.

Mrs. Herman C. Bryant, daughter of Mr. and Mrs. D. W. Newsom of Carthage and daughter Abigail of Cincinnati, who have been seriously ill with the influenza, are improving.

An appeal has been made for Victrola records to be used by the inmates of the county poor farm. Some time ago a Victrola was donated, which is the chief amusement that the people have to pass away the time, so people having records, that they do not care to use any more, may leave at the George C. Wyatt & Co. store and they will be delivered.

URGES SOLDIERS TO HELP

Washington, Oct. 15.—Declaring there never was a more critical time in the history of the war than the present week, Secretary Baker today called upon officers and men of the American army to set the example for people back home in subscribing to the fourth Liberty Loan.

6,101 SOLDIERS REGISTER

Indianapolis, Ind., Oct. 15.—Six thousand one hundred and one Indiana soldiers were registered as voters for the election to be held Nov. 5, according to reports presented by the commission in charge of the soldier registration work to Gov. Goodrich today.

Premier Always Anti-German

What is taking place in Bulgaria to-day might safely have been prophesied months ago. The material lay open in the files of the Sofia Prepress, the personal organ of Prime Minister Malinoff. He became premier at the end of June. Editorials written by him during the preceding weeks show that he was thoroughly anti-German, and that when the time came he would act accordingly. At times his outspokenness is remarkable.

When Germany settled the affairs of prostrate Roumania in her own way, at the Treaty of Bucharest, Malinoff sounded a warning.

"Bulgaria has not benefited at all," he wrote on June 4, "and what is hers by right has been taken from her. We do not doubt our own future. But we doubt what the future of allies will be with us."

A few days later he wrote: "The assertion that the question of the Dobrudja will be settled after the conclusion of peace cannot warm any Bulgarian heart. On the contrary, it reduces to dust the projects of Germany in southeastern Europe."

This was sufficiently plain. But the next day went still farther. He felt that Germany was virtually helping Turkey to take Bulgarian territory. And he said:

THIS DAY IN THE WAR

Oct. 15, 1917

Three German ships sunk in engagement with Russians in Soca sound.

Oct. 15, 1916

Allies take 1,500 prisoners on Somme.

Oct. 15, 1915

Serbian capital moved to Mirovitza.

Oct. 15, 1914

Germans occupy Bruges.

"One who extorts cannot be an ally. If Bulgaria must seek an understanding with Turkey, she may have to enter into direct negotiations, which may have a result quite the opposite to what the allies, Germany and Austria, expect."

After Malinoff became premier, the Vossische Zeitung sent a correspondent to interview him, and the correspondent reported his as saying, somewhat cryptically, that "many of the mistakes of the late government were closely connected with Germany." In the course of the same week, a paragraph appeared in the Prepress which spoke of certain "blackmailers, thieves, and impostors" (identity unspecified) "who are the greatest enemies of our country, much more dangerous than the enemy in arms against us." Apparently the Vossische Zeitung had thought: "Could he possibly mean us?" At any rate, it announced that it would withhold its opinion as to the real attitude of Malinoff toward Germany until he made it plainer by his actions. It should be sufficiently plain by now.

Beef And Brawn

In the month of June, 1918, we exported to France, Great Britain, Italy and Belgium 90 times as much beef as we sent them in any month during the three years preceding the war.

Operations near Metz and elsewhere have given all nations a salutary proof of the weight of Uncle Sam's fist. So he now incurs no danger by giving them, through the above statistics, an impression of the capacity of his larder.

State Salaries Subject To Tax

As the revenue bill passed the House of Representatives it provided for the application of the income tax to the salaries of the State officials, and to the interest on State and municipal bonds that may be issued after the approval of the act. Grave differences of opinion exist among lawyers as to whether the Congress has a constitutional right to impose taxes on States and their instrumentalities. In anticipation of the debate on the revenue bill when it is reported to the Senate, Hon. Philander C. Knox of Pennsylvania made an exhaustive study of the question and submitted his views to his fellow Senators in order that the matter may be given thorough consideration before the bill comes up for a vote.

The conclusion that Senator Knox reached is that, in time of war, Congress can levy taxes on State securities and the salaries of State officials. His argument, in brief, is that, under the Constitution, Congress has the exclusive right to declare war; the States are denied every means to prevent, carry on, or terminate invasion; it is the duty of the Federal Government to protect the States and maintain a republican form of government in them; and is folly to impose such obligations upon the National Government and then deny it the right to subject its wealth to an equal share of the burdens of the common defense.

The importance of this matter is shown by the fact that there are at present outstanding about \$5,000,000 of bonds of the different States and their subdivisions, and about 1,000,000 persons holding office under state governments whose salaries approximate \$1,500,000. Under the present revenue bill those salaries will be taxed, but the interest on the bonds will not—only those that may hereafter be issued being included in the income tax.

Senator Knox holds that the exigencies of the present situation are such that Congress should impose a tax on all municipal bonds if it can constitutionally do so. Mr. Knox states that he knows of persons who own several millions of dollars worth of State securities and do not pay one penny of income tax; neither do

they pay Liberty Bonds. "There is a rugged equity," says the Senator, "in trying to unlock the coffers where these millions of State securities are confined." He would have Congress enact a law to tax State bonds precisely as other bonds are assessed. The man who objects to such a tax on the ground of unconstitutionality can have recourse to the courts. But who will institute the first suit? It is probable that the law would never be contested.

A Decisive Answer

President Wilson has replied decisively to the German government with a note that will admit of no quibbling or evasive answers such as characterizes previous diplomatic discussions with Germany. The president in very plain language says that the representative of the free people of the United States cannot deal with a mis-representative government which has plundered and burned and murdered and has little respect for its promises. In declaring that he cannot deal with a government controlled by the kaiser, he has said that autocracy must disappear before this war can be ended satisfactorily for the allies. The president refers outspokenly to the unlawful and disgraceful acts of which the German government has been guilty on both sea and land, reminding the German government that it must repent of its sins before it can be expected to be accepted into a league of nations to guarantee the peace of the world in the future.

The present reply measures up to the standard set by the American people who have demanded unconditional surrender, because it is nothing short of that. The president tells the imperial government that no armistice can be granted which is not dictated by the leaders of the allied armies and that none will be allowed, which will in the least weaken the position or advantages gained by our victorious army.

President Wilson is evidently bidding for a revolution in Germany because the military leaders have shown no disposition to relent and give the people of Germany a voice in affairs. They had an opportunity when the note of inquiry was forwarded, to make satisfactory changes which would permit peace negotiations, but the reply Saturday evening from Germany made it plain that there was no change of heart on the part of the Prussian war lords and that they were still up to their old game of trickery and evasion.

There is no doubt but that President Wilson in his latest answer to Germany speaks for the allies as well as the people of the United States and that the countries associated together in the war against German autocracy and all that it represents will continue to fight until the aims of the allies have been attained.

Sectionalism in Practice

Representative Claud Kitchen denied that he made the assertion that the revenue bill had been so drawn as to make the North pay the bulk of the taxes, but he admitted that such would be its effect. Now Secretary of the Treasury McAdoo comes forward to the Third Liberty Loan. On an average, 17.5 per cent of the people of the country were subscribers to the Third Liberty Loan, but the ten states that came in at the tail of the list were all in the south, and North Carolina, Kitchen's own state, was at the tip of the tail. Only 3.3 per cent of the people of North Carolina were subscribers to the loan.

The Kaiser's earlier declaration that he proposes to fight to the "bitter end" conveyed a pretty correct description of the kind of end his forces will meet.

In an address in the house while the bill making appropriations for the department of agriculture was under consideration, Representative Sidney Anderson, of Minnesota, submitted comparative statistics showing that if the price of cotton were fixed at a point comparable with the fixed price of wheat during the four years preceding the war, the price of cotton today could not exceed 25 cents a pound, to the farmer. We shall see what the administration that denounces sectionalism will do for cotton.

Darning needles are now out of the market, and the club women who do not like to mend stockings will be pleased.

To the Central Powers

President Wilson has replied with his note. Have you replied with your Bond subscription? If not, back him at once with a liberal purchase. Remember that the Fourth Loan is going slowly all over the Nation. Are you to blame?

Farmers Trust Company

MUST PAY BILLS BY OCT. 20

Water Consumers Must Settle Accounts or Suffer Penalty

City water consumers who are delinquent on their last quarterly bills, are urged to pay their accounts before next Sunday, October 20 or suffer the penalty provided for in the rules laid down by the state public service commission. Water bills are delinquent after the tenth of the month following the close of the quarter, but patrons are given until the twentieth to pay up. If they do not buy that time, the water will be turned off and it will cost them \$1 to have the service resumed.

PRESIDENT SAYS AUTOCRACY MUST GO IN REPLY TO GERMANS

Washington, Oct. 15.—President Wilson's reply to Germany's note of Saturday evening, answering the president's inquiry, which was forwarded yesterday evening, was as follows:

"The unqualified acceptance by the present German government and by a large majority of the reichstag of the terms laid down by the President of the United States of America in his address to the congress of the United States on the 8th of January 1918, and in his subsequent addresses, justifies the President in making a frank and direct statement of his decision with regard to the communication of the German government of the 8th and 12th of October, 1918.

"It must be clearly under-

stood that the process of evacuation and the conditions of an armistice are matters which must be left to the judgment and advice of the military advisers of the government of the U. S. and the allied governments and the President feels it his duty to say no arrangement can be accepted by the government of the United States which does not provide absolutely satisfactory safeguards and guaranties of the maintenance of the present military supremacy of the armies of the United States and the allies in the field.

"He feels confident that he can safely assume that this will also be the judgment and decision of the allied governments.

"The President feels that it is also his duty to add that neither the government of the United

States nor, he is quite sure, the governments with which the government of the United States is associated as a belligerent will consent to consider an armistice so long as the armed forces of Germany continue the illegal and inhumane practices which they still persist in.

"At the very time that the German government approaches the government of the United States with proposals of peace its submarines are engaged in sinking passenger ships at sea and not the ships alone but the very boats in which their passengers and crews seem to make their way to safety; and in their present enforced withdrawal from Flanders and France the German armies are pursuing a course of wanton destruction which has always been regarded as in direct violation of the rules and practices of civilized warfare. Cities and villages, if not destroyed, are being stripped of all they contain and often of their very inhabitants.

"The nations associated against Germany can not be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desolation are being continued which they justly look upon with horror and with burning hearts.

"It is necessary also in order that there may be no possibility of misunderstanding that the President should very solemnly call the attention of the government of Germany to the language and plain intent of one of the terms of peace which the German government has now accepted. It is contained in the address of the President delivered at Mt. Vernon on the fourth of July last. It is as follows:

"The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world, or if it can not be presently destroyed, at least its reduction to virtual impotency.

"The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it. The President's words just quoted naturally constitute a condition precedent to peace, if peace is to come by the action of the German people themselves. The President feels bound to say that the whole process of peace will, in his judgment, depend upon the definiteness and the satisfactory character of the guaranties which can be given in this fundamental matter. It is indispensable that the governments associated against Germany should know beyond a peradventure with whom they are dealing.

"The President will make a separate reply to the royal and imperial government of Austria-Hungary.

"Accept, sir, the renewed assurances of my high consideration. (Signed)

"ROBERT LANSING."

"Mr. Frederick Oederlin,

"Charge d'Affaires Ad Interim, in charge of German interests in the United States."

BEAVER BOARD FOR BETTER WALLS & CEILINGS

The Old Home Looks Young Again

"It's a surprise for you!
"Dad and I had the old cracked walls all covered with Beaver Board. The old, dingy wall paper is gone, no more ceilings can fall, the old home looks young again."
Beaver Board will give you just as pleasant a surprise. It comes in big, sturdy panels made from the strong, clean fibre of the spruce tree, without a crack, knot or blemish—ready to nail over old walls and ceilings or the tudding of new partitions! For the new home, Beaver Board is equally satisfactory. It keeps out cold in winter and heat in summer. Patent "Sealtite" surface prevents warping.

Society

Mrs. Will Carter was a charming hostess last evening for the members of the Monday evening bridge club. A very enjoyable evening was spent over the tables.

Mr. and Mrs. Jesse Gray, living north of this city entertained with a pitch-in dinner last evening in honor of their son Wilbur, who has been voluntarily inducted into the marine corp, and will leave Saturday for Paris Island, South Carolina. Throughout the spacious rooms baskets and wall pockets were filled

with brightly colored dahlias, red being the predominating color. The dining room table was beautifully adorned with a bouquet of fall flowers of varied hues. There were about twenty-five guests, who enjoyed the evening with music furnished by the Victrola.

Mr. and Mrs. Al McDaniel of Carthage entertained with a pitch-in dinner Sunday. The centerpiece for the table was a bouquet of dahlias and covers were laid for the following guests: Mr. and Mrs. Fletcher Branson, Bernice and Robert Branson, Mr. and Mrs. Charles Parish and children Louise and Fred and Mrs. Russell Sears.

Mr. and Mrs. John Casady, south of this city, entertained with a week-end house party the following guests: Miss Ida Dixon, Mrs. Myrtle McDonald and daughter Vivian of Indianapolis, and Miss Gertrude Dixon.

Red Cross Notes

At the combination sale of Guy Ewing and Alphonso Draper, a white pig, with a red cross painted on it, was donated, which was sold and resold until the amount reached \$72. The money was given to the Ripley Red Cross. The proceeds from the lunch served by the Christian Helpers amounted to \$24.00.

TRANSPORT AMERICA SINKS AT PIER TODAY

Troops Barely Escape, Leaving Their Equipment Behind—Mechanics Open Seacocks

FORMERLY A GERMAN LINER

(By United Press.)
An Atlantic Port, Oct. 15.—The transport America sank at her pier here today.

The transport sank at her pier in 25 minutes. All aboard escaped. The sinking is believed to have been caused by accidental opening of seacocks by mechanics engaged in repair work. She lies partly submerged.

A naval court of inquiry is to start an investigation immediately. Troops aboard the ship were forced to flee for their lives so hurriedly that many lost their equipment.

The America was formerly a German liner and was taken over by the United States government at the outbreak of the war. She was a 26,000-ton vessel.

TWO INCREMENTS ENTRAIN HERE TODAY

Continued from Page One
report because they have already been inducted into the Students Army Training Corps at the colleges where they are attending school.

The board today received competent orders for the induction of five more registrants from this county into the S. A. T. C. at two colleges as follows: Otto Moore of near Rushville, Morris Fessler of Shelbyville R. R. 6 and Ross J. Tweedy of Carthage, at Butler college, Irvington, and Herbert Inlow of Walker township and Harold D. Kinney at Chicago university.

The board was officially notified today of the rejection of Ermonst R. Carr of Milroy at Camp Custer, Battle Creek, Mich., on account of physical unfitness. He was inducted into the service from this county May 23.

A bulletin reaching the board today says that Indiana leads in the nation in the per cent of the September 12 class of registrants classified and examined. The average per cent for classification in Indianapolis is above ninety. Utah is second, Wisconsin third and Colorado fourth.

Germans Must Give up Or Invasion is Only Alternative

Continued from Page One
dence of waning morale. With the shortage of man-power to meet, it was said that the German general staff has logically decided on shortening its lines to increase the resisting power of its reduced forces. To accomplish a scientific retreat, however, the lines in the rear must

be prepared, organized and equipped in advance and reserve troops must be installed in those lines to receive and check the shock of enemy pursuit after the retreating forces have passed through to rest and reorganize in the rear.

Under the terrific and never-ceasing hammering of the allied armies, however, they have no time to arrange for withdrawal on the scale necessary to meet their shrinking forces. Many officers have feared that by some diplomatic trickery the enemy would obtain enough time to fall back on the Rhine, shorten his lines, redistribute his forces, reconstitute his stocks of guns and munitions, and prepare for a long, defensive battle.

Pres. Wilson's reply has shown the enemy, it was said, that his program no longer is possible to him. He must fight it out now or surrender.

ALLEGES BOARD DID NOT SPECIFY WIDTH

Anna E. Kiser Says Closing of Jackson Township Highway and Opening of New One is Illegal

FILES AN INJUNCTION SUIT

Anna E. Kiser of Jackson township has filed an injunction suit in the circuit court against Isaac N. Stevens, Elmer E. Ellison and Joseph A. Stevens, trustee of Jackson township, to prevent the closing of a road and the opening of another in accordance with a decision of the county board of commissioners.

The plaintiff alleges that the opening of the new highway is illegal because the board did not specify in the order how wide it should be. She sets forth in the complaint the various steps which were taken in commissioner's court—that a remonstrance was filed against the report of the first set of viewers which found that the closing of the old highway and the opening of the new one was of public benefit. The remonstrance was sustained and a new set of viewers was appointed. Their report was the same as the first one and the township trustee accordingly began tearing up the old highway.

Advance Beyond Lafere and Laon Continued by French

Continued from Page One
Roulers, the most important Belgian city thus far liberated from Hun domination, fell Monday before the onslaught of British, French and Belgian troops fighting under King Albert. The advance carried the allied soldiers far in the direction of the cities of Courtrai, Thiel and Thourout. Advances show that the average progress of the attackers was about four miles. A maximum gain of six miles was made at points on the thirty-mile front.

Reports from Paris late Monday declare that nearly 10,000 prisoners were taken, in addition to a large quantity of materials and many guns. Among the prisoners was a complete regimental staff and a battalion commander. Two batteries were captured with the horses hitched to the guns, showing an instance in which the Germans were too slow in carrying out their "methodical" withdrawal.

Shortly after the attack started, the Germans began blowing up dumps of material and applying the torch to towns and villages. Four explosions were noted near Becrst. Many fires were kindled in Roulers before the enemy withdrew. Numerous villages were captured and scores of civilians freed.

Americans Capture 2 Towns

With the American First Army, Oct. 15.—Swinging into the third phase of the Argonne-Meuse battle, the Americans have crossed the Aire river and captured Romagne and Tuncel.

The infantry attacked yesterday morning after a terrific bombardment which drove the Germans out of their forward trenches.

The doughboys encountered stiff resistance and their advance was made more difficult by the nature of the ground over which they passed. They were ably supported on the right by the French.

In their advance with the British in the Champagne, the Americans have gained more than fifteen miles in three days.

Plus Coat Values

The real basis of all value, in times of plenty or scarcity, is—is the material good? Is the workmanship right? Is the style unexceptionable? Is it what you wish?

But, when, as today with good fabrics scarce and all materials high, you have a chance to buy on the basis of previous season's costs, then you get

Value Plus

And that is what a large proportion of our stock offers. It's a question of business foresight—early exercised to a wonderful extent by makers who for years have helped us make ours the leading coat and suit department in Rushville.

We know you appreciate such extra values and we have been keen in securing them.

So we repeat: See what we offer around \$25 to \$50—you'll save enough on them to buy Thrift Stamps or more War Savings Stamps.

HOW WEAK, NERVOUS WOMEN QUICKLY GAIN VIGOROUS HEALTH AND STRONG NERVES 7 A DAY FOR 7 DAYS

A Vigorous, Healthy Body,
Sparkling Eyes and Health-Colored
Cheeks Come in Two Weeks, Says
Discoverer of Bio-feren.

World's Grandest Health Builder
Costs Nothing Unless It Gives to
Women the Buoyant Health They
Long For.

It is safe to say that right here in this
big city are tens of thousands of weak,
nervous, run-down, depressed women who
in two weeks' time could make them-
selves so healthy, so attractive and so
keen-minded that they would compel the
admiration of all their friends.

The vital health building elements that
these despondent women lack are all
plentifully supplied in Bio-feren.

If you are ambitious, crave success in
life, want to have a healthy, vigorous
body, clear skin and eyes that show no
dullness, make up your mind to get a
package of Bio-feren right away.

It costs but little and you can get an
original package at any druggist any-
where.

Take two tablets after each meal and
one at bedtime—seven a day for seven
days—then one after meals till all are
gone. Then if you don't feel twice as
good, look twice as attractive and feel
twice as strong as before you started your
money is waiting for you. It belongs to
you, for the discoverer of Bio-feren
doesn't want one penny of it unless it
fulfills all claims.

Note to Physicians: There is no
secret about the formula of Bio-feren.
It is printed on every package. Here
it is: Leithin, Calcium Glycero-phos-
phate, Iron Peptonate, Manganese Pept-
onate, Ext. Nux. Vomica, Powd. Ben-
zoin, Phenolphthalein, Oleoresin Cap-
sicum, Kolo.

LOOKS AFTER MEN WHEN PRISONERS

**Y. M. C. A., Faithful Friend Of
Fighting Man, Doesn't Desert
Him When He's Captured.**

WHAT WORK CONSISTS OF

**Provides American Prisoners In Ger-
many With Books And Means Of
Recreation.**

The American soldier unlucky
enough to be taken prisoner and sent
to a Boche camp is by no means in
such sad case as he might be. The
Y. M. C. A., that faithful friend of
the U. S. fighting man, don't do as
much for a doughboy after the Huns
have him in charge as before they got
him, but they do manage to soften
his sorrows in no slight degree.

Up to the time when America en-
tered the war the Yankee Y. M. C. A.
had a big organization looking after
Allied prisoners in Germany. When
it became necessary for Ameri-
cans to leave the land of the goose-
step and the Kaiser "Y" affairs were
placed in the hands of neutrals,
mainly the Swiss and Scandinavian.
American funds still keep these men
at work, with the International Com-
mittee, which maintains a central
office in Berne, Switzerland with offi-
cers in Berlin, Vienna, Paris, Petro-
grad, Rome, and Sofia, to oversee
things. The War Prisoners' Aid
Department deals directly with the
interned men.

Its work consist, mainly, in furni-
shing the prisoners with books and
means of recreation. Musical in-
struments, paraphernalia for indoor
and outdoor games, theatrical ma-
terial and, in some cases, food
and clothing are provided. A car
load of baseballs, bats, tennis rackets,
etc., footballs, etc. recently was sent
through Switzerland to American
prisoners in German camps. Part
of these had been asked, as a means
of "somewhat Americanizing" our
position, "by the men".

In the way of reading matter,
books of almost every kind are
needed, but works of a technical na-
ture are in great demand. Many a
fine American boy, now interned in a
German prison camp is getting the
start of an improved career when he
returns to the United States. Score
of such fine lads are spending most
of their time in the study of electri-
city, chemistry, engineering, survey-
ing, etc. The war over, they will be
ready to put the knowledge to prac-
tical use.

The work of the War Prisoners'
Aid Department has been extended
to the United States soldiers interned
in all parts of the Central Powers,
as well as in Germany proper, and
also to the Polish prisoners held in
France. In one camp the Poles pub-
lish a well printed and well edited
newspaper, not only amusing to its
editors and readers but of real mis-
sionary value as printing the truth
about political aspects of the war.

The United War Work Campaign
will direct to the fact that the United
States army prisoners in German
prison camps need ever increasing
service. The International Commit-
tee, strives subject to most drastic
regulations by the German govern-
ment and finds its task none too easy
at best.

Save leaves from the shade and
fruit trees. Never burn them. They
are an excellent and cheap fertilizer
for the garden.

REORGANIZATION OF IND. WAR WORK

Plans For Further Co-ordination Of
Activities By Women And Men In
Indiana

IN CHARGE OF STATE COUNCIL

**Purpose Is To Bring Closer Into The
Organization The Women Of The
State.**

Plans for the further co-ordina-
tion of war work by the women and
men in Indiana, through a reorgani-
zation of forces of the Indiana State
Council of Defense, are now under
way. They will be presented for the
ratification of the General Assembly,
which meets in January.

Announcement was made today at
the offices of the state council to un-
dertake this step for the purpose of
bringing closer into the organization
the women of the state, giving the
entire council program the benefit of
the stimulation naturally expected
from such enlargement and associa-
tion of effective workers.

The Woman's Section of the coun-
cil, acting in harmony with the fed-
eral program, has engaged in a large
number of patriotic activities, with
great effectiveness. In some in-
stances there has been some dupli-
cation of the work done by the reg-
ularly constituted defense organiza-
tions, and the proposed reorganiza-
tion will eliminate this and probably
increase the effectiveness of the ef-
fort, by direction through a single
agency.

Mrs. Anne Studebaker acting
chairman of the Woman's Section
of the council has been operating
under the Woman's committee of the
Council of National Defense, which
has been fused with the State Coun-
cils section, and which is now the
Field division. This division is head-
ed by Franklin K. Lane, secretary of
the interior, in the president's cabi-
net. It includes the most effective
men and women workers of the two
organizations. It is to incorporate
the advanced ideas of the Washing-
ton plan, that the Indiana State
council plans to realign its forces, in
time to have such readjustment leg-
alized by legislative action.

The Indiana State Council of De-
fense was organized on a voluntary
basis, after the adjournment of the
this reason it will be a part of the
previous General Assembly. For
program of the next legislature to
define its powers, membership, du-
ties, etc., and legalize the expendi-
tures that have been made. Govern-
or James P. Goodrich arranged a
\$100,000 loan for financing the
council's activities, which the legis-
lature will probably repay, in ad-
dition to making a new appropriation
for the continued activity.

ONE INFLUENZA DEATH

Knightstown, Ind., Oct. 15.—Walter
Pape, 33 years old, of Wells-
ville, Kas., died here in a rooming
house Monday, following a brief
illness of influenza. It was the
first fatal case in this city. Pape
was formerly a carriage painter in
this city. His widow survives.

BANISH CATARRH

**Breathe Hyomei for Two Minutes
and Stuffed up Head Will Get Relief**

If you want to get relief from
catarrh, cold in the head or from an
irritating cough in the shortest time
breathe Hyomei.

It will clean out your head in two
minutes and allow you to breathe
freely.

Hyomei will end a cold in one day,
it will relieve you of disgusting snif-
fles, hawking, spitting and offensive
breath in a week.

Hyomei is made chiefly from a
soothing, healing, germ killing, anti-
septic, that comes from the eucalyptus
forests of inland Australia where catarrh,
asthma and consumption were never known to ex-
ist.

Hyomei is pleasant and easy to
breathe. Just pour a few drops into
the hard rubber inhaler, use as di-
rected and relief is almost certain.

A complete Hyomei outfit, includ-
ing inhaler, and one bottle of Hy-
omei, costs but little at druggists ev-
erywhere and at Johnson's Drug
Store. If you already own an inhaler
you can get an extra bottle of Hy-
omei at druggists. (Adv.)

SOFT FOR THE HUNS ON ENGLISH FARMS

No Worry About High Living in Rich Harvest Fields of Quiet English Countryside

15 ARE AGRICULTURAL CAMPS

If More Than Three Prisoners Are Left on One Farm, A Guard Is Left With Them

(By United Press.)

London, Sept. 11. (By Mail)—The Hun prisoner of war in Great Britain has a soft lot.

There's no worry about the high cost of living bothering this captured Fritz, and he has the rich harvest fields of England to utilize his idleness.

Great Britain employs on farms, 22,000 Germans, practically all of whom were captured on the western front.

Of these, 800 live on the farms, their jobs ranking with those of the American farmer's "hired man."

The others are kept in clean camps, under guard. Fritz is well pleased with his present lot and is content to abide on his present "job" until the fighting's all over. There's plenty of opportunity for the Hun to escape, but records show a comparatively small number of attempts.

Great Britain put the scheme for employing Germans on the land into effect in June, 1917. In that month 15 agricultural camps were established, with 100 Huns to each camp.

Since then the number of camps has increased to more than 300 with a population of 20,000, and in addition there is a considerable number employed on drainage and other work.

The leniency with which Britain deals with the prisoners is illustrated at Cheshire: 26 guards take 200 prisoners from the camp for distribution among 96 farmers within a distance of three miles. As a mail carrier drops his letters, the guards

We Know It Is Hard

To get the Christmas spirit so early, but rather than disappoint the boys in France, we now have on display our beautiful line of personal greeting cards and

October 31st

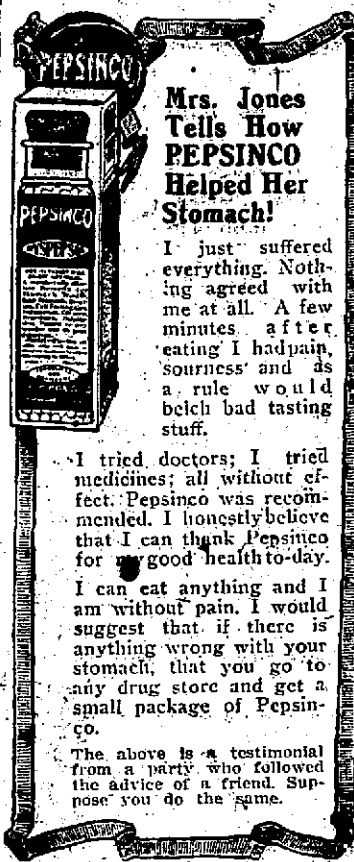

is the final date for mailing cards to the soldiers. Just a little more than a month and by the time that your order has been filled, it will really hurry you to get them mailed.

Embossed and Engraved

Yes, all the samples are embossed in colors and engraved. Your name engraved adds the personal touch. Send the boys over there a message on Christmas day—it will enlighten them. People who bought cards last year must bring their plates. This is going to be a card Christmas because it is cheaper and answers the purpose of an expensive gift. Presents will not be sent to soldiers this year because the government needs the ships to carry soldiers instead of heavy mail.

Ten Per Cent Discount Now on Orders

The Daily Republican

Mrs. Jones Tells How PEPSINCO Helped Her Stomach!

I just suffered everything. Nothing agreed with me at all. A few minutes after eating I had pain, sourness and as a rule would belch bad tasting stuff.

I tried doctors; I tried medicines; all without effect. Pepsinco was recommended. I honestly believe that I can thank Pepsinco for my good health today.

I can eat anything and I am without pain. I would suggest that if there is anything wrong with your stomach, that you go to any drug store and get a small package of Pepsinco.

The above is a testimonial from a party who followed the advice of a friend. Suppose you do the same.

FIXES PRICES FOR BUTTER & CHEESE

Food Administrator Receives Complaints About High Prices Charged For Commodities.

COST PRICE IS DEFINED

Shall Not Include Any Allowance For Shrinkage In Weight, Commissions Or Expenses.

Special license regulations, relative to the butter and cheese business, promulgated in connection with the recent inquiry made into the abnormally high prices at which these commodities had been retailing, have been issued by the United States Food Administration for the guidance of federal license holders and those dependant upon such licensees for their retail supplies. Dealers in fruits and vegetables who have been engaged in the sale of butter and cheese also are affected.

In insisting that butter be retailed at a reasonable advance over the cost, the Food administration defines "cost" for the purpose of this rule to include: 1. Purchase price; 2. Transportation charges, if any; 3. Storage charges actually incurred

on cold storage butter; 4. Insurance charges actually incurred on cold storage butter; 5. Interest on money invested at the current rate while butter is in cold storage; 6. Actual cost of printing, if the butter is put in print form from the tubs or tubs. Cost shall not include any allowance for shrinkage in weight, commissions or expenses other than those here-in listed. Maximum margins permitted in any sale except by manufacturer or retailer shall be limited as follows: 1 cent per pound on car lot sales; 1 1/2 cents per pound on 7,000 pounds; 2 cents on 3,500 pounds; 2 1/2 cents on 700 pounds; 3 cents on 100 pounds and 3 1/2 cents on less than 100 pounds. Additions for cold storage charges are limited to 1 cent per pound for one month and not more than 1 cent per pound for succeeding month up to a maximum of 2 cents.

For cheese the first five cost items are the same as for butter and the sixth permits of additions covering the cost of paraffining not to exceed 1 cent per pound. Sales except by manufacturers and retailers are subject to the following limitations: on car lots 3 cents per pound; 7,000 pounds 1 1/2 cents per pound; 500 pounds 1 3/4 cents per pound; and less than 500 pounds 3 cents per pound.

Hogs harvesting a corn and soybean crop will make faster and cheaper gains than if fed the same feed by hand.

Live Stock Sale

At The CULLEN FARM, 1 1/2 miles west of Rushville,, Indiana, on

Wednesday, Oct. 23rd, 1918

150 PURE-BRED Duroc Hogs 150

125 Gilts and 25 Spring Boars

In making this offering we feel a pardonable pride and believe you will bear us out in the statement that this is one of the best ever sold from this farm. They are a uniform lot throughout, rich in some of the best and most popular blood of the breed, have lots of size and quality and have been grown in a way to give them plenty of bone and muscle—the kind to keep getting better and produce results. Do not let this opportunity pass by and if they meet your approval make your selections, and if you will permit a suggestion—buy them regardless of price for there was never a time when a good sow or boar would make more money than now. ALL DOUBLE IMMUNED.

20 HEAD OF CATTLE 20

Two yearling POLLED SHORTHORN BULLS, one Roan, one Red, sired by a ton bull and out of excellent cows. 10 GRADE COWS with first calves by their side, ready to wean. A lot of good milkers.

4 Head of Horses 4

2 Chestnut Three-year-old Geldings; 1 Bay Three-year-old Gelding, well broken and excellent workers; 1 Two-year-old Chestnut Gelding. These were all raised on the farm, sired by our own stallion, out of good mares, and will mature 1600 pounds or better. We are selling these for lack of room and will make someone good money to feed till spring.

1 McCormick BINDER IN GOOD CONDITION.

TERMS—A credit of six months without interest will be given, purchaser executing approved bankable note. 3 per cent off for cash. Settlement to be made before removal of property.

SALE TO BEGIN AT 10:00 SHARP.

UNDER TENT, RAIN OR SHINE.

Lunch will be served on the grounds by the Pleasant Ridge Epworth League Red Cross.

DR. J. C. SEXTON,
MILLER & BUTTON, Auctioneers.

WILL L. BROWN,
WEBB-BROS. Clerks.

Constipation

THERE IS NOTHING equal to Chamberlain's Tablets for constipation. When the proper dose is taken their action is so agreeable and so natural that you do not realize that it is the effect of a medicine. These tablets possess tonic properties that aid in establishing a natural and regular action of the bowels. Chamberlain's Tablets have cured many cases of chronic constipation.

Chamberlain's Tablets

MARTIN

Save For Uncle Sam

You have worked hard to grow more corn and grain this year. Every bushel raised represents extra toil. Are you going to lose the results of your efforts by storing in rat-infested cribs? Very little money is needed to secure full protection for your crops. In fact, the corn destroyed by rats will pay for the MARTIN CRIB. Write for descriptive matter, and let us show you how you can save by saving for yourself and Uncle Sam.

SHERIFF'S SALE

By virtue of a certified copy of a decree to me directed from the Clerk's office of the Rush Circuit Court in a cause wherein The Merchants' Lintotype Co. is plaintiff and William Newbold, assignee of Richard W. Noyes, is defendant. Requiring me to make the sum of Nineteen Hundred Seven Dollars and Sixty-six cents (\$1907.66) with cost. I will expose to Public Sale in the highest bidder on Wednesday, the 30th day of October, 1918,

between the hours of ten o'clock a. m.

REGULATIONS FOR SENDING PACKAGES

Gifts for Sailors on Vessels Abroad Must Reach New York by November 15

OTHER RESTRICTIONS FIXED

Josephus Daniels, secretary of the navy, has made public the regulations governing the sending of Christmas packages for men both at home and in the war zone. Packages for navy men serving on vessels abroad must reach New York not later than November 15, according to the regulations.

The regulations provide that packages sent by parcels post must comply with the postal regulations and must be inclosed in substantial boxes with hinged or screw top covers, to facilitate opening and inspecting.

All boxes sent by express are limited to twenty pounds, should be not more than two cubic feet in volume, be of wood well strapped and have hinged or screw tops.

No perishable food product other than those in cans or glass jars should be packed.

All packages must be marked with the names and address of the sender with a notation "Christmas box," and must be forwarded in care of the supply officer, fleet supply base, Twenty-ninth street and Third avenue, South Brooklyn, N. Y.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more yawning, sniffing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

and four o'clock p. m. at the north door of the court house of said Rush county, Indiana, the following described personal property, located in the old Jacksonian office, 222 North Morgan street, Rushville, Rush Co., Indiana, to-wit:

One two-letter lino type a type casting machine of the manufacture of the said mortgagor, bearing the name "Lynotype" known as Lynotype Model 14, No. 22399, equipped with but two regular fonts of matrices.

It is further ordered and decreed by the Court that the mortgage described in the findings, be and the same are hereby foreclosed, and defendant's equity of redemption in and to the same be, and the same is hereby barred and forever closed upon defendant's failure to pay said judgment, then upon plaintiff's order, the Clerk is ordered to issue a certified copy of the decree to the Sheriff of Rush County, Indiana, who shall proceed to sell the property described in said mortgage as other property is by law sold upon execution without relief from valuation and appraisal laws, and shall apply the proceeds as follows:

1st—He shall pay all costs of this action accrued and accruing.

2d—He shall pay the balance, if any, to the plaintiff or his attorney, or to the Clerk of the Court for his receipt.

WHAT A STINK THIS CROP WILL CREATE

Indiana's Production of Onions This Year Will Amount to 1,280,000 Bushels

100,000 BELOW LAST YEAR

Lafayette, Ind., 15—Indiana's onion crop will total 1,280,000 bushels this year according to estimates of Purdue experts. This is only about 100,000 bushels below the production of last year, although the acreage this year was only 3,200 compared with 4,250 last year.

The yield per acre this year was four hundred bushels, an average of sixty-four bushels more than the average of last year.

The onion crop started moving this year about two weeks ahead of the usual time. Nearly 600 cars have already been shipped out of the state.

The onions this year are reported to be well formed, although small in size. They are dried, however, and will store much better than usual.

ITALY DRAWS UP LAWS OF THE AIR

Aerial "Traffic Ordinance" is Result of Over Year of Study by Government Commission.

IT IS SIMILAR TO SEA LAWS

Provides Regular Aerial Ports Are To Be Equipped With Same Facilities As Seaports

By HENRY WOOD
(U. P. Staff Correspondent.)

Rome, Sept. 9. (By Mail.)—The Italian government has just completed the draft of a series of laws governing aerial navigation.

The proposed statute is the result of over a year of study by a government commission and the law as now

completed ready to be submitted to the Italian parliament consists of 41 articles. This is the first project of the kind that any government has perfected, and indicates the initiative Italy expects to take in aerial transportation following the war.

In a general way the new aerial law is similar to those governing sea navigation. For the present the law is for application in Italy alone, but it is expected to serve later as a basis for similar laws in other European countries and finally as the foundation for international laws governing aerial navigation, which must inevitably follow with the development of this means of transportation.

The new Italian law fixes, first of all, the technical names to be used in designating the more important aspects of aerial navigation. All aircraft, whether airplanes or dirigibles, will be known under the general name of aeromobiles. Aerial ports will be the name applied to the regular places for landing and departing,

while refuge ports will be the name applied to those landing places where the aircraft can put in in case of accident.

The law provides that regular aerial ports are to be equipped with very much the same facilities as are to be found in any great sea port for the landing, unloading, repairing and taking on of cargoes.

Special articles provide for what an aeromobile must do if it is obliged to land in other than a regular or refuge aerial port.

Special provisions govern the zones of altitude in which the aeromobiles must navigate to prevent collisions and other accidents.

The proposition to limit the height at which the aeromobiles might navigate in order to render more easy their surveillance from the ground, was stricken out, and no limit was placed on the altitude of flight.

On the other hand, for reasons of national defense, there is an article prohibiting aeromobiles from flying

over forts and other military and naval defenses.

The proposed laws would prohibit transportation by aeromobiles of inflammable matter, explosives and other kinds of merchandise that might endanger the aircraft and other property in case of accident.

Other articles provide that all aeromobiles must be registered in the national registry of aircraft; that each aeromobile must have a government certificate of its navigability; that there must be officers of recognized competence aboard; and that each aircraft must carry certain official documents.

The proposed code in all probability will be made law at the coming session of parliament.

Experiments conducted throughout Indiana this year show that steers fed grain while on grass earned much larger profits than those on pasture alone.

SUGGESTS SCHEME BE TRIED OUT HERE

Indiana Church Federation Sends Outline of Montgomery County Church Drive

PROVES A GREAT SUCCESS

Results in Adding 1,200 New Members to Sunday Schools—a Follow-up Campaign

The Indiana church federation with headquarters in Indianapolis, has suggested that the Montgomery county church and Sunday school drive and seven weeks follow-up campaign be attempted in Rush county.

"To keep the altar fires burning and help win the war why not have the church federation put this Montgomery plan on in Rush county?" says a letter from the Rev. M. C. Pearson, president of the Indiana church federation, in which is included a brief outline of the Montgomery county plan.

The origin of the pledge drive came from Darlington and Franklin township with Dr. E. L. Williams, chairman of the committee, presenting a definite pledge which was adopted and successfully worked by teams covering the entire township.

After this the Williams committee visited Crawfordsville and addressed three meetings, one the Women's Federated Sunday School classes, another a meeting of men of the Federated Bible classes and later on in the week a general meeting of Christian workers. The plan of Franklin township was adopted and a supper or banquet at the Y. M. C. A. brought together four hundred team workers. This force was thoroughly organized and the teams covered the entire city of Crawfordsville in two days. The local papers pronounced the banquet to be the greatest religious gathering in its importance ever held in the city. The campaign then spread throughout the county, resulting in additions of 1200 new members in the Sunday school and including those who had lapsed for months in attendance, an aggregate of about 1,500 new scholars.

By request Dr. Edgar Williams presented a detailed outline of his pledge plan and it is the purpose of the Indiana Federation of churches to duplicate this work, beginning in September or October, in the counties throughout the state.

This drive correlates beautifully with all forms of follow-up church work and was a surprise and a joy to the pastors of Crawfordsville, all of whom made five minute speeches at the banquet when 600 went out the next day in teams to cover the carefully planned districts of the city, including the factory district.

The results were beyond the most sanguine expectation. One instance will suffice. In a men's Bible class, two prominent business men who had been solicited for three or four years, but without success, when the atmosphere was charged with enthusiasm and the teams covered the city these two men became regular members of this large Bible class in the First Christian church of Crawfordsville. Among other results, is an increase of attendance in all the churches and Sunday schools.

The pledge card enables the pastors and Sunday school workers to plan a follow-up system of work covering the fall and winter of the year. Interested churchmen wishing to see this plan worked in this county can address Edgar L. Williams, executive secretary of the Rev. Mr. Pearson, president of the Indiana federation.

Sweet potatoes should be cooked a week before storing. Then put them in a paper bag or a bag of straw in the furnace room or in the attic floor around the chimney.

MERGER OF PHONE SYSTEMS LIKELY

Although Unable To Get Together, They Will Probably Be Forced To Reach Agreement

METHOD IS CHIEF OBSTACLE

Indianapolis, Oct. 15.—Merger of the independent and the Central Union telephone company in Indiana so that subscribers will have to pay but for one telephone probably will be carried out shortly, according to indications today.

Although the Central Union and the independent companies have yet been unable to reach any definite agreement they probably will be forced to get together on some arrangement by the federal government by the first of the year.

The grounds on which the merger will be made form the chief obstacle to the unification of the two systems at present.

William Fortune, president of the independent company in Indianapolis, wished to make a physical connection, immediately giving the subscribers on one system the opportunity of reaching those on the other without extra charge.

It would take about 60 days to complete the connection.

The central Union has favored a merger of the two system into one company and not a physical connection between the two companies.

AMERICAN MEN AND WOMEN IN FIGHTING TRIM

They Keep To The Top Notch of Health

The spirit of the times demands perfect health and nerves, and keeping them up to the highest degree of efficiency.

Wise men and women have learned that it does not pay to allow health or nerves to run down and are quick to take advantage of Nature's greatest red blood and nerve tonic, Phosphated Iron, the minute they feel they are slowing up.

Whatever your work may be there is no reason why it should continue to tire you; work should only use the right amount of your energy. It is trying to work on your nerves and forcing yourself that wastes your strength, runs you down, gives you those restless nights, loss of appetite and indigestion, when you get up in the morning as tired as when you went to bed.

There is no sense in anyone being a victim of ill health, poor blood, overwork, nerves or the blues when Phosphated Iron will afford such prompt and permanent relief.

All over the country men and women in every walk of life lay their good health, strength and nerves of iron to the use of Phosphated Iron, the red blood and nerve builder, and it will also give you a new look, make you feel like a live one. It produces results that last, that's what counts, no "ifs" about it.

To insure physicians and their patients getting the genuine Phosphated Iron, be sure you buy capsules only. Do not take pills or tablets. Insist on capsules.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of leading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can't get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little, but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening the numerous pores and the water face on the stomach, liver, kidneys and bowels. It is vastly more important to bathe the inside than on the outside. Because the inside pores are not always open, they need the limestone phosphate to keep them open.
